

2-22-2000

Dear Sir:

Here are two additional leads for the secret JFK handling of all data at AFIP, Walter Reed. Please contact:

- (1) - Morris Goldberg, Director of MIS, Medical Illustration Services, AFIP, in 1963-1976. He was in Silver Spring, Md. (Retired DOD). He has never been interviewed.
- (2) - Ms. Faye Dawson, Forensic Pathology Division, AFIP (1963). She was a secretary and aide to Dr. P. Fincke. She was in Takoma Park, Md. (Retired DOD). She has never been interviewed.

Please investigate, ASAP. These people are primary sources.

Also:

- (3) - Charles Edwards, photomicrographs & gross, AFIP, Illustrations Branch. He is in Bowie, Md. (Retired DOD). He has never been interviewed about the sectioning of JFK's brain, noted in the ARRB testimony of K. Vrtacnik.

All three (3) of the above knew Ms. Joan Schilling and Mr. K. Vrtacnik.

It is imperative that the true nature of AFIP, Pathology Institute as an "Assassination Clearinghouse," be known for the historical record in the JFK matters. Ditto, the AMM, old Army Medical Museum on the Mall, D. C.

It is imperative that the 1949 charter of the AFIP, Pathology Institute, be re-examined, if not revoked. No where is there a right to obstruct investigations or assist in assassinations and cover-ups of same. There is no right to tamper, forge, substitute, steal, defraud, retouch materials, etc., in a federal forensic homicide case (Dallas). If the AFIP conspires in such matters with the FBI, then this country must act to nullify the AFIP. They appear to foster a pro-homicide approach in the JFK matter, ditto the Medical Museum at AFIP (basement). The Congress must study the issue of the AFIP charter, and its possible revocation. The Congress must hold hearings soon on this topic. AFIP is also involved in the issue of the Ron Brown autopsy. Surely, Mr. H. Weisberg and Mr. J. Lesar are well aware of all of this. The accessories and proxies at AFIP, Pathology Institute, in the JFK assassination and other matters, have no right to involve innocent employees in federal forensic homicide cover-ups and shennanigans, etc. Nor do they have the inalienable right to use and blackmail military servicemen or women to participate in same. Let us not stonewall further. Let us push forward, on the trail of the accessories and assassins.

Anon
